ENQUIRIES for further particulars concerning survivors listed in this book should be addressed to the SEARCH BUREAU FOR MISSING RELATIVES, JEWISH AGENCY FOR PALESTINE, P.O.B. 92, JERUSALEM.

A separate sheet should be used for each name, quoting the page and column on which the name appears.

THE JEWISH AGENCY'S SEARCH BUREAU for Missing Relatives, the purpose of which is to facilitate the re-establishment of contact between the remnants of Jewry in Europe and their relations in the Land of Israel and overseas, submits herewith the first volume of the "Register of Jewish Survivors" to the public. The Register contains the names of 60,000 Jews of various countries, saved from the camps and the ghettos, who have been registered wherever they were found following the liberation of Europe from Nazi servitude.

For several months the Search Bureau has published lists of Jewish survivors through the mediums of the press, the radio and special bulletins, issued under the general name "To those Near and Far". However, such forms of publication are only of partial value. The limited space available in the newspapers or the Bulletins permit them to submit the names of rescued persons to the general public only a few at a time. Furthermore, the impermanent nature of these publications and the inevitable dispersal of the material have the result that their aim is not entirely achieved as they do not always reach those relatives and acquaintances of rescued Jews who are in a position to extend aid.

The "Register of Jewish Survivors" aims to satisfy all requirements by issuing lists of names in book form, which will be available at all times for those who need them. This volume is the first of the series, and will be followed by others which will contain further lists received from representatives of the Jewish Agency, the Jewish Brigade and other institutions which are registering and aiding the remaining Jews in Europe. The following lists of names have been prepared under conditions which are not conducive to exact registration or checking of details. For this reason they are not without errors, and garbling may have occurred. We have endeavoured to correct errors as far as we could, but this has proved impossible in many cases. There are still numerous difficulties in postal communication, which is only now being renewed following the war years. Further changes have occurred in the governing authorities at places where the rescued Jews are concentrated. In addition there have been frequent movements of the rescued Jews themselves. Hence it has proved impossible to conduct the necessary checking and counter-checking required to correct the garbled and doubtful names, without deferring the publication of this volume for a prolonged period, with the resultant increase in anguish and deferment of hopes on the part of all those affected. However, we are of the opinion that even garbled and incorrect names may serve to provide information to relations and acquaintances, who will frequently be able to interpret and correct them with ease.

These lists are incomplete. They do not, that is, include the names of all those saved within the limits of the specific spot (camp, town or country) where it was drawn up. Hence the reader who does not find a certain name in a given list should not give up hope on that account; for it may well be found in one or other of the lists to be published in forthcoming volumes, or in those published in the Bulletin "La-Raboaq we-la-Qarobh" ("To those Near and Far").

IN 1110
AS 1110
1110

The lists included in the latter Bulletin, it should also be noted, are for the greater part not included in this Register. Hence persons who seek for news of their kindred should also watch these lists as they are published.

The technical difficulties with which we met in the publication of this volume were exceedingly numerous, and in certain cases even proved insurmountable. For this reason there are a number of unavoidable defects in the present volume, which we shall endeavour to eliminate in those to follow. We shall be grateful if our attention is drawn to any defects etc., we may have overlooked, and shall do everything in our power to ensure that forthcoming volumes may be more adequate to their purpose.

For the convenience of those using the lists we supplement the contents (at p. V) with an explanation of the arrangement of each separate list; and recommend all users to refer to this before proceeding to the lists they require.
